HELPFUL HINTS: NINJA

To find Scrolls:

First Scroll- Can be located in screen #1. Kill transforming Ninja and the scroll will appear.

Second Scroll- Can be located in screen #4. Shoot at the Dog Statue on the far left hand side 5 times and the scroll will appear.

Third Scroll- Can be located in screen #6. The scroll is located in the first Samurai house surrounded by a moat on the left side of the screen. Cross the footbridge and go to the top right corner. Shoot the corner (to left of bush) and scroll will appear. Get the scroll and cross over the footbridge.

Fourth Scroll- Can be located in screen #8. Go through the entry way to the open field. Shoot at the last bush towards the back wall and the scroll will appear.

Fifth Scroll- Can be located in screen #9. Crawl up the wall (disappearing really helps) staying on the right side as you make your way up. When you reach the falling rocks you can stop them from falling, by shooting the rock hole at the far right side 46 times. However it is not necessary to do so to obtain the scroll. Go up past the rock holes and start fighting the main boss of the round, but do not kill him. Leave him and go to the far right side of the screen, (on the same walkway the main boss is on almost above the far right rock hole) and the scroll will appear. Now, go back and finish off the boss.

Screen Ten - Walk along the middle of the stone grey walkway to the stairs. This will place you onto another walkway. There will be bushes on your right and bushes with round grey statues on your left. Go up to the last grey statue and punch it three times then disappear three times. A message will appear and you will move on to the Maze Round.

Maze Round - When you first enter the maze go left. Make the first right. Shoot and disappear a lot here, allow them to chase you. Be sure to watch your back. Stay along the right till the first possible opening. Go right in between the middle pillars, there will be eight on each side. Then get ready to fight the main boss!

Extra Scroll - Along your journey you will come across Blue and Red Scrolls. The Blue Scrolls enable you to move faster. The Red Scrolls give you Stars and Weapons.

Good Luck!
