Secret Command:

When the "Sega Master System" logo appears press button two on the directional pad until you prompt a screen that shows numbers one through four, with the word "off" next to them. With your directional pad change them to "on" (you will become invincible and have unlimited men).

4. Slows blinking of weapon select

To exit, go to control pad #2 and push button #1. This sequence will work for two players as well.

To Go Underground:

Destroy the Arm Carrier and capture the Arm Capsule (Bubble with "?"). This will cause the seven alphabetical letters appearing on the upper half of the screen to flash in a sequential order. Be sure to select the letter "D". This will enable you to go underground. To select a letter, when the letters are flashing in sequential order, press button #1 on the control pad when "D" appears. When Hilun flies towards you (looks like a blue diamond) destroy them and this will enable you to go underground.

HELPFUL HINTS: **RAMBO FIRST BLOOD PART II**

Level 5 :

If you get three sets of "S & L" you will get nintynine Arrow Bombs. In order to get a free Man, you need "S & L" and a "?" without dying!

Level 6 Version 1:

In this level, you are faced with destroying a barrier with a face on it. Be sure you have collected the letters "S & L" before you attempt to destroy this barrier. You can collect these by shooting the Grey Rocks.

Shoot 5 arrow-bombs towards the wall on the left side of the face.
Shoot 5 arrow-bombs towards the wall on the right side of the face.
Then shoot 5 arrow-bombs towards the face itself!

Level 6 Version 2 (Quick Way):

To the left of the wall is a launcher. Use the gun to hit the tip of the launcher ten times. This will cause the left side of the wall to disappear. Then shoot the right side of the wall four times with arrow-bombs. Then shoot four arrow-bombs towards the face.

Good Luck!
