Defeating the Evil Lords of Semia

Round 1: Kentorous

Land on top of him with your weapon pointed downwards. Jump and hit him three times.

Round 2: Slayer

Stay clear from the fireballs he shoots. When he stops shooting, get close, crouch down and slash at the knees.

Round 3: Shukumas

Hit him in the head while avoiding his fireballs.

Round 4: Aryous

You will want to keep moving because once you stop, he will attack. Try to repeatedly stab him from beneath.

Round 5: Fedorak

Hit him in the head six to eight times with your sword facing down. You will want to use the high jump off the wall to your advantage.

Round 6: Read Dragon

Hit him with your sword at the sides of his head; avoid touching him with any part of your body.

Note: When his head stops moving, that means he is going to shoot.

Round 7: Flying Dragon

Aim for the head by jumping up and coming down with your sword, or you can slash from behind.

Note: To defeat the Evil Lords, stay on one screen and allow them to come to you.
